CREATIVE AND PROFESSIONAL

Providing the resources of a large corporation, while maintaining the personalized service and cost-effectiveness of a small company...

Established in 2000, HAISON COMPANY are an engineering company and one of the first independent Control and Information System Integrator in Vietnam, providing a wide range of planning, consulting, and implementation services to industrial clients for Instrumentation, Industrial Automation and Process Control Systems.

We provide a complete range of systems for specific market segments, while our products have universal applications for many industries. We do professional services and system integration services in Vietnam. Services include consulting for automation planning and specification development, through system equipment selection and project management, to electrical and instrumentation, SCADA, control system programming, field installation & start-up, training and long-

term support.

HAISON COMPANY provide supports for our suppliers' products in USA, Europe, Japan and Australia and their backup services through a network around the world.

Key to our success is providing our customers with experienced and quality professionals for Instrumentation, Industrial Automation and Process Control Systems. Our customers are always satisfied with our high quality products and dedicated customer services. We provide our customers with the fast and effective assistance. We offer the highest quality of product and service. But above all we meet our customer's needs. Our continued growth are based on our commitment to our customers.

“ Innovative solutions to meet our customers’ diverse engineering needs ...”

RELIABLE

Our products and services are applicable to a diverse range of industries. Apart from the local customers like Petrovietnam subsidiaries including PTSC, PV Gas Company, Petrolimex, Petechim, Phumy Fertilizer Plant, Sugar Companies includ-

ing Khanh Hoa Sugar, Breweries Contractor Polyco, we also serves multinational corporate customers like Nestle, Unilever, BP, Exxon Mobil, Japan Vietnam Petroleum Company (JVPC), Phumy 3 BOT Power Plant owned by a Consortium

comprising of Statoil, BP Amoco, Tomen and Mitsui, Phumy 2-2 BOT Power Plant owned by a consortium of Electricité de France (EDF), Sumitomo and Tokyo Electric Power Company (TEPCO), etc.

The foundation of who we are and what we do is based on providing our customers with quality engineering and automation solutions...

CÔNG TY TNHH HẢI SƠN

Nhà cung cấp giải pháp tự động hoá và điều khiển

Thành lập từ năm 2000, Công Ty TNHH Hải Sơn là công ty kỹ thuật chuyên về tư vấn, tích hợp hệ thống, thiết kế và chuyển giao toàn bộ các hệ thống đo lường, điều khiển và tự động hóa trong công nghiệp.

Công ty TNHH Hải Sơn cung cấp toàn bộ các hệ thống trong các lĩnh vực công nghiệp, trong khi các sản phẩm của chúng tôi có nhiều ứng dụng trong các ngành khác nhau. Chúng tôi cung cấp các dịch vụ kỹ thuật và tích hợp hệ thống cho các khách hàng ở Việt Nam. Dịch vụ của chúng tôi bao gồm tư vấn và lựa chọn giải pháp, cung cấp thiết bị cho các hệ thống điện và điều khiển, quản lý dự án, lập trình, lắp đặt, đào tạo và bảo trì.

Ở Việt Nam, chúng tôi giúp đỡ khách hàng và cung cấp dịch vụ bảo hành cho các nhà cung cấp tại Mỹ, châu Âu, Nhật và Úc thông qua một mạng lưới toàn cầu của họ.

Chìa khóa của những thành công của chúng tôi là sự phục vụ khách hàng chuyên nghiệp trong các dự án về tự động hóa, điều khiển và đo lường. Khách hàng của chúng tôi luôn hài lòng với các sản phẩm có chất lượng cao và các dịch vụ tận tình của chúng tôi. Chúng tôi giúp đỡ khách hàng nhanh và có hiệu quả. Chúng tôi cung cấp những sản phẩm và dịch vụ có chất lượng cao nhất. Trên hết là chúng tôi luôn thỏa mãn nhu cầu của khách hàng. Sự phát triển của chúng tôi gắn liền với sự phát triển của khách hàng.

“ Chúng tôi cung cấp những giải pháp tối ưu về chi phí và thời gian cho những nhu cầu kỹ thuật đa dạng của khách hàng...”

KHÁCH HÀNG VÀ LĨNH VỰC

Các sản phẩm và dịch vụ của chúng tôi có những ứng dụng rộng rãi trong nhiều ngành công nghiệp.

Hiện nay chúng tôi đang hoạt động trong các ngành dầu khí, năng lượng, hóa chất và các ngành công nghiệp chế biến. Ngoài ra chúng tôi cũng đang có nhiều dự án trong lĩnh vực quản lý cơ sở hạ tầng và các nhà cao ốc.

Ngoài những khách hàng trong nước gồm các đơn vị thành viên thuộc Tổng công ty dầu khí Việt Nam như PTSC, PV Gas, Petrolimex, Petechim, Đạm Phú Mỹ, các công ty đường như Công ty đường Khánh Hòa, các nhà thầu như công ty Polyco chuyên về xây dựng các nhà máy bia, nước giải khát, chúng tôi cũng có khách hàng là các công ty đa quốc gia như Nestle, Unilever, BP, Exxon Mobil, JVPC, nhà máy điện Phú Mỹ 3 thuộc về liên doanh Statoil, BP Amoco, Tomen và Mitsui, Nhà máy điện Phú Mỹ 2-2 thuộc về liên doanh EDF, Sumitomo và TEPCO, v.v.

Our specific expertise includes the following scope of work

- Automation and Control System Planning
- Standards Development/ Functional Specifications
- Bid Specifications/ Procurement
- Detail Design/ Project Management
- PLC Programming/ HMI Development
- Configuration/ Custom Code Programming
- Interface Design and Programming
- System Integration/ Site Supervision
- Installation/ Testing and Commissioning

Key personnel within HAISON have experience with Control & Instrumentation design not just data cabling. Therefore, we understand the whole network requirement and can design the appropriate solution. All designs conform to current standards with consideration for: performance, input/ output count, location of process equipment and overall layout.

The solution will be fully costed providing a single price for the complete system. Every project is treated as a one off, designing solutions to align properly with the customer's operational aims and objectives.

In support, HAISON employs a highly trained and motivated work force that allows for flexibility in meeting "real time" changes to customers' requirements in terms of time scale or system design.

From initial concept through to completion, the project will be overseen by a project manager with the proven ability to plan and achieve critical milestones.

CÔNG TY TNHH HẢI SƠN

Nhà cung cấp giải pháp tự động hoá và điều khiển

Dịch vụ kỹ thuật

Project manager's responsibilities start with agreeing the project requirements on receiving the customer's order. Start and completion dates are agreed with the customer beforehand and an installation team assigned. If any deviations arise during the installation the customer is notified and an action plan agreed.

We believe that quality is the key to client satisfaction. Our personnel work to the highest standards in the industry using equipment of the highest quality to install systems of the highest quality.

HAISON offers a truly comprehensive service, but we are not only interested in large system like a DCS. If a customer requires a few points added to their system, we will be price competitive. Also, the contractor or end user need not use all our services for any given project. We are happy to handle design, project management and testing and also can do the system installation according to the customer requirement.

Hải Sơn cung cấp các giải pháp chuyên biệt cho các khách hàng như phân tích, thiết kế hệ thống tự động hóa và chế tạo các tủ điều khiển, lập trình PLC, HMI, SCADA, lắp đặt, kiểm tra và chạy thử các hệ thống đó.

Công ty TNHH Hải Sơn có một đội ngũ kỹ sư, nhà thiết kế, quản lý dự án có kinh nghiệm với nhiều ứng dụng công nghiệp và chúng tôi cố gắng cung cấp những dịch vụ chất lượng và hỗ trợ khách hàng tốt nhất.

Chúng tôi có thể cung cấp các hệ thống tự động hóa theo yêu cầu của khách hàng. Khi khách hàng cần, chúng tôi có thể cung cấp toàn bộ một hệ thống cho các nhà máy mới hoặc nâng cấp các hệ thống có sẵn trong nhà máy cho khách hàng với giá cạnh tranh.

Stahl supply an extensive range of products for Hazardous Area Location (Zone 0,1 & 2)

Safety Barriers

Engineering - Single-channel Safety Barriers - Dual-channel Safety Barriers - Standard Applications

Load and Motor Switchgear

Safety Switches - Load and Motor Switches - Motor Protection Circuit Breakers

Remote I/O

General Information - Engineering Examples - CPU & Power Modules - Input/Output Modules for Analog Signals - Input/Output Modules for Digital Signals - BusRail

Equipment for Conduit Installations

Cable Glands and Bushings - Bell Mouthed Glands - Bushings - Stopping Plugs - Counter Nuts - Flat Rings - Enlargements - Reducers - Adaptors - Breathing Glands

Installation Equipment

Installation Switches - Junction Boxes - Terminal Boxes - Plugs and Sockets - Couplers - Coupler Sockets - Socket-Outlet Assemblies - Maintenance Socket Isolators

Installation Material & Accessories

Cable Glands EEx e - Cable Glands EEx e/d - Bell Mouthed Glands - Bushings - Stopping Plugs - Accessories - Flat Rings - Enlargements - Reducers - Adaptors - Breathers - Accessories for Conduit Installation

I.S. Isolators

Transmitter Supply Unit - Isolating Repeater - Switching Repeater - Binary Output - Fieldbus Isolating Repeater - HART-Multiplexer - Supply Module - pac-Bus - pac-Carrier

Control Panels, Distribution Panels & Components

EEx e-Enclosures - EEx d Enclosures - Lighting and Heating Panels - Standard Motor Starters - Pressurized Apparatus - Components - Sample Assemblies

Operating and Monitoring Systems

- Terminals for Hazardous Areas and Industrial Areas Performance Class IPC, Visualisation, Graphics, Text, Software

Control Equipment

Position Switches - Control Equipment for Panel Mounting - Control Unit Systems - Control Stations - Alarm- and Fire Stations - Components for Control Stations

Lighting Technology

Light Fittings for Fluorescent Lamps - Emergency Light Fittings - Bulkhead Light Fittings - Pendant Light Fittings - Flood Lights- Hand Lamps - Mounting Material - Emergency Lighting Technology

- Temperature Controllers - Signalling and Monitoring Equipment - CCTV Camera - Traffic Lights - Optical Beacons - Horns - Measuring and Monitoring Equipment for Panel Mounting

CÔNG TY TNHH HẢI SƠN

Nhà cung cấp giải pháp tự động hoá và điều khiển

SOR Products

SOR serves the oil and gas, power and nuclear industries with precision instruments that measure pressure, level, temperature and flow. SOR products represent the industry gold standard for quality, reliability and durability. No company builds a better product, and no company backs their products with better warranties or better customer service.

Pressure and Level Transmitters

SOR Pressure transmitters are designed for use in hazardous conditions and hostile environments. The rugged and compact design provides an instrument perfect for use in tough locations where space is limited. SOR also offers a comprehensive line of level transmitters. Whether you need a submersible level device, non-contact ultrasonic transmitter or continuous output RF probe, SOR has a solution.

Pressure Switches

When it comes to pressure switches, one size does not fit all. SOR will engineer a pressure switch to meet your individual needs using components such as switching elements, diaphragm systems and pressure ports specifically selected for your application.

Level Switches

Adaptability is a good quality to have when it comes to measuring process level. SOR level switches can be engineered specifically for your application by varying the switch type and number, housing, chamber material, process connections and other accessories.

Temperature Switches

The products can handle temperature extremes, corrosive process media and the most unfriendly environments. Tell us the situation and we'll engineer your temperature switch with selections that include alternative housings, switching elements and accessories.

Flow Switches

SOR manufactures two distinct flow technologies to meet the needs of your specific application. Vane-operated switches work magnetically to sense the flow of liquid, while thermal differential switches offer a more flexible solution with no moving parts.

Nuclear Switches

It's a familiar situation at older nuclear power plants - the switch that was made years ago is no longer available. Relax. SOR can design and build 1E-qualified pressure, differential pressure or temperature switches that'll get the job done.

It is a nature of a System Integration Project to have various and different types of products from different suppliers. We could provide most of the products for a project depending on the scope of work and the customer's preference.

In case you need any particular products that are not listed here, please feel free to contact us and we could out source for you from our extensive network of associates locally and globally at a competitive price.

Registered Q

Masoneilan Control Valves

Valves - Control & Safety

GE's heritage in valve technology dates back to the late 1800s. With that heritage, an installed base of more than three million valves and well-known industry brands—Masoneilan, Consolidated, Becker and Nuovo Pignone—customers can count on our technology to protect their process assets. We bring our valve expertise, advanced design tools and modern manufacturing technologies to applications in oil and gas, power generation, refining, petrochemical and water control industries. To optimize valve installations, we offer valve asset management software and lifecycle supportservices.

Features & Benefits

Full range of anti-surge and hydraulic valves, control valves, safety and safety relief valve

Simplified design and construction facilitates maintenance procedures, and reduces time and cost

High quality materials and rugged construction offer durable, long-term service in harsh conditions

Wide range of configuration options enable a customized fit in many applications for reduced inventory and cost-effective valve management and maintenance

Microprocessor-based, control valves instrumentation for simplified installation and ongoing performance management

Optimum control performance
for a wide range of automated
process control applications

KLAY-INSTRUMENTS

We produce a wide range of Pressure and Level transmitters in “All Stainless Steel design”. Both Analog and “Intelligent” series are available with HART Protocol and Profibus PA. Many certificates are available, like ATEX Ex, EHEDG food approvals, Marine Type approvals like DNV, RINA and Lloyds.

Besides our pressure and level transmitters we also produce Levelswitches, like our All stainless steel “Tuning fork” level-switch, type “Vibra-Switch”. Also a range of pressure switches and PT-100 temperature sensors are produced. All instruments are designed and produced in our factory in Dwingeloo, The Netherlands. Klay Instruments has a world wide sales and service network in more than 45 countries.

PRODUCTS

- Level Transmitters Conventional
- Level Transmitters “Intelligent”
- Pressure Transmitters Conventional
- Pressure Transmitters “Intelligent”
- Submersible Level Transmitters
- Level Switches
- Temperature
- Differential Pressure Transmitters

**FLOATING / TRUNNION MOUNTED BALL VALVE
TOP / SIDE ENTRY BODY Construction**

**MANUAL OR ACTUATOR
DOUBLE BLOCK & BLEED VALVE, SUBSEA**

**DESIGN & MANUFACTURED
according to CODES :**

API 6D , API 6A , Firesafe to API 6FA, ASME B 16.34 , ASME B 16.5 , ASME B 16.47 , ASME B 16.25 , MSS-SP-44

**MATERIALS OF CONSTRUCTION
offer include but not limited to :**

Carbon Steel , Low Temperature Carbon Steel , Stainless Steel , Austenitic Stainless Steel , Duplex SS , Super Duplex SS , Monel* , Inconel* , Hastelloy , Titanium , Nickel Aluminum Bronze & other on request.

* Trademark of The Inco Group of Companies

SPECIFICATION Ranges :

Size Range : 2" to 60"
Forged or Cast Body Design
Single , 2 or 3 piece body construction
Pressure Rating : ASME Class 150 to 2500
Temperature Range : -20F (-29°C) to +932F (+500°C)
Full & Reduce Bore
Soft and Metal Seated
Threaded, SW, BW, RF, RTJ Type
flanged end connection
Fully Welded Body available on request

**Products manufactured endure
vigorous TESTINGS :**

Pressure Test to API 598 / BS 6755 Part 1
Shut Off Class VI , V
Other TESTS include : MPI , PMI , DPE , Radiography , Ultrasonic , Cryogenic

**GATE / GLOBE / CHECK VALVE
Bolted Bonnet / Pressure Seal / Cryogenic**

**DESIGN & MANUFACTURED
according to CODES :**

API 6D , API600, API602, BS1414, BS5352, BS1873, ASME 16.34

**MATERIALS OF CONSTRUCTION
offer include but not limited to :**

Carbon Steel , Low Temperature Carbon Steel , Stainless Steel , Austenitic Stainless Steel , Duplex SS , Super Duplex SS , Monel* , Inconel* , Hastelloy , Titanium , Nickel Aluminum Bronze & other on request.

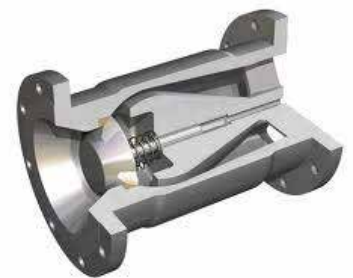

* Trademark of The Inco Group of Companies

**Products manufactured endure vigorous TEST-
INGS :**

ISO 5208, API600, BS6755, API 598
Other TESTS include : MPI , PMI , DPE , Radiography , Ultrasonic , Cryogenic

SPECIFICATION Ranges :

Size Range : 2" to 48"
Forged or Cast Body Design
Pressure Rating : ASME Class 150 to 2500
Flanged end to ASME B16.5
Screwed end to ASME B1.20.1
Socket weld to ASME B16.11

CÔNG TY TNHH HẢI SƠN

Nhà cung cấp giải pháp tự động hoá và điều khiển

BUTTERFLY VALVE

Concentric / Double Eccentric / Triple Offset

DESIGN & MANUFACTURED according to CODES :

API 609 Face to Face : API609 , GB12238 , BS5155 , MSS SP-67

MATERIALS OF CONSTRUCTION offer include but not limited to :

Carbon Steel , Low Temperature Carbon Steel , Stainless Steel , Austenitic Stainless Steel , Duplex SS , Super Duplex SS , Monel* , Inconel* , Hastelloy , Titanium , Nickel Aluminum Bronze & other on request.

* Trademark of The Inco Group of Companies

Products manufactured endure vigorous TESTINGS :

Pressure Test to API 598 / BS 6755 Part 1
Shut Off Class VI , V
Other TESTS include : MPI , PMI , DPE , Radiography , Ultrasonic , Cryogenic

SPECIFICATION Ranges :

Size Range : 2" to 80"

Pressure Rating : ASME Class 125 to 2500

Temperature Range : -454F (-270°C) to +482F (+250°C)

Soft and Metal Seated

STRAINERS & FILTERS

Our partner is a worldwide, ISO 9001:2000 certified of "specialized filtration equipment" (Strainers, Filters & Pressure Vessels) for industrial and commercial application. We offer design and solution either a low pressure, low flow application or a high pressure, high flow application to specifically suit your requirements. We can meet a host of filtration retention levels, specifications and requirements enabling us to offer a wide variety of materials, meshes and pressure ratings.

DESIGN & MANUFACTURED according to CODES :

ASME VIII , ASME VII 'U' Stamp , ANSI B31.3 , PD5500 Cat 1, 2 & 3 , CE/PED , CRN , Norsok , Chinese 'M' Stamp , Stormwesen , Swedish Pressure Vessel Code , Australian Pressure Vessel Code , A.D. Merb-latter.

MATERIALS OF CONSTRUCTION offer include but not limited to :

Carbon Steel , Low Temperature Carbon Steel , Stainless Steel , Austenitic Stainless Steel , Duplex SS , Super Duplex SS , Monel* , Inconel* , Hastelloy , Titanium , Nickel Aluminum Bronze & other on request.

* Trademark of The Inco Group of Companies

Products manufactured endure vigorous TESTINGS :

Hydrostatic up to 910 Bar G

Pressure Test up to 420 Bar G (actual flow stimulated proof tests available)

Other TESTS include : MPI , PMI , DPE , Radiography , Ultrasonic , Cryogenic , Strain Gauge Analysis , Brittle Lacquer.

PRODUCTS Range :

Conical / Temporary Strainers , Y Type Strainers , Simplex/Basket Type Strainers , Duplex / Dou Basket Strainers , Fabricated & Customer Builds (Fabricated Y , Basket , Tee , PTFE Lined , Cartridge Filters , Automatic Self Cleaning)

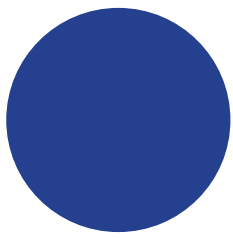

SPECIFICATION Ranges :

Sizes : 0.5" (15mm) to 78" (1980mm)

Pressure Rating : Class 125 to ANSI Class 2500Lb , above on request.

End Connections : Screwed Ends (API, BSP, NPT) , Butt Weld / Socket Ends , Flanged (ANSI, BS4505, BS10, DIN, JIS)

AMETEK® DREXELBROOK®

• Ametek Drexel Brook

AMETEK Drexelbrook is known throughout the world as a leader in level measurement technology. We've earned our reputation for excellence from over five decades of experience in providing level solutions to virtually every industry including chemical, petrochemical, refining, power, water and wastewater, food, pharmaceutical, pulp and paper, mining, automotive, and many others.

- Point Level Measurement

- . RF Admittance Level Measurement
- . Vibration Level Measurement
- . Ultrasonic Level Measurement
